# STAND OUT IN THE MARKET WITH OUR NEW PILL AND VITAMIN JARS

---

Packaging is vital to the perceived value of a brand and shelf appeal is an influencing factor for purchasing in today's consumer driven market.

These new style pill and vitamin jars have been specifically designed for pharmaceutical and nutritional brands who want to stand out in the market. The unique shape and attractive style will help to differentiate your brand from others on the shelf.

When it comes to delighting your customers, the jar with a simple snap closure is not sufficient any more. Consumers are looking for new technologies and innovative solutions which is why we also offer child resistant, senior friendly, integrated desiccants and new shock absorber technology in these flip-top-snap caps.

## PROTECT, PROMOTE AND ENHANCE YOUR BRAND WITH BLUESKY.

Flexible production quantities are available on both coloured and clear jar options with short production lead times and customisation options, just give us a call to talk through your requirements.
