Choose from a range of high-end finishes

- ✓ **Foil Stamping for a luxurious metallic shine**
- ✓ **Embossing & Debossing for a tactile experience**
- ✓ **Glossy, Matte, or Soft-Touch Coatings for the perfect look & feel**

Ensuring Safety & Security

For industries requiring the highest level of security, such as pharmaceuticals, health, and food/beverage, we can offer advanced solutions. Our packaging can include braille for accessibility, and anti-counterfeit features like hologram labels, microtext, security inks, and varnishes. We also offer tamper-evident folding boxes.

Commitment to Sustainability

If you prefer all your boxes to include varnishes (overall, partial, or relief), they are produced using Mix Credit. This ensures the paper is FSC certified and traceable, though it doesn't contain recycled content.

sales@blueskysolutionsuk.com

For an even greener option

Skip varnishes to use 100% recycled materials—perfect for adding a sustainability message. Embossing and foiling are still available for a premium finish.
